

# Inzamam UI Haq

Senior iOS Developer

engrinzamamulhaq@gmail.com | +92-307-5236875 | linkedin.com/in/engrinzamamulhaq

---

## PROFESSIONAL SUMMARY

Senior iOS Developer with **7+ years** building high-performance, user-friendly iOS applications in **Swift, SwiftUI, UIKit, and Objective-C**. Proven expertise in **MVVM and Clean Architecture, REST API integration**, performance optimization, and end-to-end **App Store deployment**. Strong cross-functional collaboration skills with a track record of leading mobile teams, delivering measurable performance gains, and shipping production iOS apps.

## TECHNICAL SKILLS

**Languages & Frameworks:** Swift, Objective-C, SwiftUI, UIKit, Cocoa Touch, Combine, async/await, RxSwift, RxCocoa, Functional Programming

**Architecture & Patterns:** MVVM, MVC, Clean Architecture, Singleton, Delegate, Notification, Observer, Protocol-Oriented Programming

**Networking & APIs:** REST APIs, Alamofire, URLSession, JSON, SwiftyJSON, SOAP, XML, WebRTC, Third-Party SDKs (Stripe, Google, Social Login)

**Tools & DevOps:** Xcode, Interface Builder, CocoaPods, Instruments, Git, Firebase (Crashlytics, Analytics, Cloud Messaging), App Store Connect, TestFlight, Fastlane, GitHub Actions, Xcode Cloud

**Testing:** XCTest, XCUITest, TDD, Unit Testing, UI Testing

**Security:** FaceID, Touch ID, 2FA, YubiKey, OTP, SMS 2FA, Biometric Authentication, Keychain

**Other:** Core Data, MapKit, Apple Push Notifications, MagicalRecord, In-App Subscriptions, Memory Management, Programmatic UI, Storyboards, Auto Layout

## WORK EXPERIENCE

---

### Senior iOS Developer — Team Lead

i2C (XiQ Sister Company)

09/2023 – Present

- **Designed and developed advanced iOS applications** for XiQ, a B2B sales platform, owning end-to-end architecture, development, and delivery.
- **Improved app performance by 66%** by identifying and fixing memory leaks, optimizing media loading, and refining system-level performance bottlenecks.
- **Achieved 100% crash-free sessions** by triaging and resolving all Crashlytics-reported issues, significantly enhancing app stability.
- **Led architectural design** for integrating an AI chatbot into the product suite, boosting user engagement by **25%**.
- **Collaborated with cross-functional teams** (backend, product owners, QA) to resolve **15+ client-reported production issues**, ensuring seamless releases.
- **Delivered the redesigned Home Screen** by resolving critical bugs and incorporating stakeholder feedback for a more intuitive user experience.
- **Implemented intuitive UI** in close coordination with the UI/UX team, translating Figma prototypes into pixel-perfect, responsive screens.
- **Managed App Store deployment** end-to-end: TestFlight beta distribution, App Store Connect submissions, App Review handling, and production releases.
- Mentored and managed the mobile team; coordinated with product for requirements gathering and sprint planning.

### Senior iOS Developer

InvoZone

07/2021 – 08/2023

- **Designed and developed iOS applications** across social, booking, cybersecurity, and health & wellness domains using Swift and SwiftUI.

- **Integrated REST APIs and third-party services** including payment gateways, social logins, and authentication providers.
- **Built RevBits ZTN**, a cybersecurity app implementing mobile 2FA (FaceID, SMS, OTP, YubiKey) and secure project-level access control.
- **Collaborated with cross-functional teams** — product managers, designers, and backend engineers — to define, design, and ship new features.
- **Identified and fixed performance bottlenecks** and bugs, maintaining high standards of code quality, organization, and responsiveness.

## iOS Developer

### Sixlogics

04/2019 – 06/2021

- **Designed and developed 4 native iOS applications** in Swift, managing complete app lifecycles from concept to App Store launch.
- **Built Planet Cricket**, a comprehensive cricket app delivering live international and league match coverage, real-time scores, statistics, and ball-by-ball commentary.
- **Implemented engaging features** including match highlights, scorecards, push notifications, and calendar integration for upcoming matches.
- **Conducted usability testing** and incorporated user feedback to improve app quality and responsiveness.

## Software Engineer — iOS

### DirectFN

01/2018 – 09/2018

- **Collaborated with cross-functional teams** to design and implement iOS solutions in a financial-services environment.
- Applied strong problem-solving skills to identify and resolve technical issues in production applications.

## KEY PROJECTS

---

**XiQ Sales** — B2B sales platform. Architected new modules, implemented Apple Push Notifications, built reusable UI components, integrated REST APIs with JSON parsing, and designed screen flows via Storyboards.

**Planet Cricket** — Live cricket scoring app with push-based ball-by-ball updates, match alerts, and calendar integration for upcoming fixtures.

**Stats24** — Real-time sports statistics and betting-insights app providing daily probabilities, news, and previews.

**Gigimot** — First-of-its-kind health and wellness marketplace; enabled providers to schedule sessions, livestream, accept payments, and manage clients from a single app.

**RevBits ZTN** — Cybersecurity app establishing mobile 2FA and biometric authentication (FaceID, SMS, OTP, YubiKey), multi-database connectivity, and data visualization via pie and line charts.

**EasyMove Driver** — On-demand moving and delivery app providing the smartest, easiest way to handle apartment moves and furniture delivery from one location to another.

## EDUCATION

---

## BS in Computer Engineering

Bahauddin Zakariya University
